Forecast for Friday 10 Feb 2023

Weather: Dry overnight and mainly high level cloud but towards dawn cloud will begin to thicken and lower with some mist, drizzle and patchy light rain through the morning. This tending to clear in the afternoon but remaining quite cloudy with some mist. The best chance of any brightness will on the hills over in the east towards Pandy and Abergavenny in the afternoon. Mist becoming more widespread again in the evening period.

Chance of cloud-free hill tops above 600m: 60% falling to 20% in the morning, improving to 50% in the afternoon

Low cloud and visibility: Patchy low cloud above 500m around dawn, cloud will thicken and lower as rain and drizzle spreads in, cloud becoming broken or extensive above 400m during the morning with poor visibility beneath in rain, mist and drizzle. There will be an improvement in the afternoon with cloud becoming more scattered above 500m and visibility becoming moderate or good, possibly becoming poor again in the evening as widespread mist and possibly fog reforms.

Meteorologist's View

Fresh winds at height and a significant windchill early in the day and in rain and drizzle, this will ease in the afternoon as freezing levels lift and rain eases.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
15:00 on Thu 09 Feb 2023	0.4mm	0.6mm	0.8mm

Forecast for Saturday 11 Feb 2023

Weather: A cloudy start to the day with some mist and fog patches but cloud tending to lift and clear by late morning with a few bright or sunny spells later. Mainly dry throughout.

Maximum wind: Westerly 15mph gusts 25mph decreasing during the day to 10mph by mid afternoon

Chance of cloud-free hill tops above 600m: 50% in the morning with scattered low cloud, improving to 80% in the afternoon.

Low cloud and visibility: Broken low cloud above 500m around the hills in the morning with mainly good visibility below, cloud more scattered further east. Where mist or fog has formed the visibility will fall poor or very poor for a time. Cloud will become scattered in the afternoon, mainly restricted to the western hills above 500m with good visibility below the cloud.

Temperature: **Valleys:** Plus 8 Celsius.
At 600m: Plus 4 Celsius.
Freezing level: Above all summits.
